IQMS Posts Double-Digit Profitability, New Customer Gains for 2008

Innovative, Single-Source ERP Leader to Celebrate 20 Years of Success in 2009

Paso Robles, California, January 27, 2009 – IQMS, a leader in the design and development of Enterprise Resource Planning (ERP) software, today announced that it closed 2008 with double-digit profitability and a ten percent increase in new customer accounts. Even as manufacturing markets have tightened, IQMS has accumulated revenue gains for several years, demonstrating the company's value to manufacturing industries worldwide, including medical devices, automotive, aerospace, plastics, and consumer goods. Founded in 1989, IQMS provides ERP solutions that drive supply chain excellence and help manufacturers achieve leaner, more cost-effective operations.

In keeping with growth and its commitment to deliver leading-edge solutions, IQMS added employees to every department in 2008, and created new work units including the Automation and Oracle Data Services groups which are focused exclusively on system advancements, customer satisfaction, and bridging shop floor equipment directly into functional ERP applications. The company also took the lead in giving manufacturers cost-effective and innovative ERP system applications with new features such as Smart Page and Smart Search.

“We started out 20 years ago to provide manufacturers with a world-class technology strategy for managing growth, data integrity and changes to their businesses,” explains Randy Flamm, president and founder of IQMS. “Our success over the years can be attributed to the many unique benefits we provide manufacturers as well as our ability to deliver bottom-line measurable results. Today, IQMS proudly boasts one of the highest

customer retention rates of any ERP provider, and we will continue to gain market share by delivering solutions that allow manufactures to run more effectively and profitably in a rapidly changing global environment.”

With EnterpriseIQ, IQMS provides a wealth of business management functionality housed in a single database. All modules are written, developed and supported exclusively by IQMS, making EnterpriseIQ a powerful and cohesive solution that not only guarantees interoperability between modules, but adds value by centralizing business activity across the enterprise. In the coming months, IQMS will celebrate its 20 years of success with customer-focused anniversary promotions every month of the year.

About IQMS

Since 1989, IQMS has been a pioneer in the design and development of ERP software for repetitive, process and discrete manufacturing industries. Today, IQMS provides leading real-time manufacturing, accounting, production monitoring, quality control, supply chain, CRM and eBusiness solutions to the automotive, medical, packaging, consumer goods and other manufacturing markets. The innovative, single-source enterprise software solution, EnterpriseIQ offers complete functionality and scalable solutions all in a single database. With offices across North America, Europe and Asia, IQMS serves manufacturers around the world. Visit IQMS online at www.iqms.com.
