### For Immediate Release

## **IQMS Integrates Global Software, Inc.'s Flagship Spreadsheet Server Application**

### *Seamless Partnership Enhances Financial Reporting in EnterpriseIQ*

**Paso Robles, California, May 16, 2008** – IQMS, a leader in the design and development of Enterprise Resource Planning (ERP) software, today announced its technology partnership with Global Software, Inc., the number one provider of Microsoft Excel-based automation and analysis tools. IQMS will now integrate Global's flagship spreadsheet application, Spreadsheet Server, into their general ledger application. The new IQMS product will be called EnterpriseIQ Spreadsheet Server.

The addition of Spreadsheet Server will allow IQMS's clients to retrieve "live" general ledger data from the Excel environment in their existing IQMS financial software package. Global Software's spreadsheet automation technology will bring the familiarity of Excel to the fingertips of IQMS EnterpriseIQ accounting users.

"We're thrilled to bring our award winning spreadsheet automation technology to the IQMS user community," stated Spencer Kupferman, Vice President, Corporate Affairs and Company Spokesman for Global Software, Inc. "IQMS had the foresight to recognize their user's need for enhanced spreadsheet automation capabilities, and we're proud they turned to Global Software, Inc. to make that vision a reality for the IQMS community."

"We are pleased to announce our technology partnership with Global Software, Inc.," said Glenn Nowak, Vice President of IQMS. "The addition of a fully automated spreadsheet environment will significantly bolster our client's EnterpriseIQ experience by allowing them to easily and quickly customize their financial reports."
