IQMS Recognized for IT Excellence by Top Manufacturing Publications

“Inbound Logistics” and “START-IT” Magazines Rank Single-Source ERP Leader Among the Best IT Solution Providers for Manufacturers

Paso Robles, California, May 9, 2008 – IQMS, a leader in the design and development of Enterprise Resource Planning (ERP) software, was recently recognized for IT excellence by two leading manufacturing industry publications. *Inbound Logistics* named IQMS from among 300 entrants as a “2008 Top 100 Logistics IT Provider”. *START-IT* magazine also distinguished IQMS as one of the manufacturing industry’s most influential technology providers in the annual “*START-IT 125*,” a directory of top manufacturing technology providers as determined by the magazine’s editorial advisory board.

“We are delighted to be acknowledged by two such well-known and influential manufacturing industry publications,” said Randy Flamm, president and founder of IQMS. “For decades, IQMS has delivered innovative ERP software solutions that help manufacturing enterprises stay lean, agile and competitive. Inclusion in these separate, but equally significant industry provider lists underscores IQMS’ ability to meet the unique and varied requirements of industry-specific manufacturers competing in today’s dynamic global economy.”

“Solutions providers such as IQMS empower logistics and supply chain management, continuing to offer innovative and practical solutions in the face of fast-changing challenges,” said Felecia Stratton, editor, of *Inbound Logistics*. “During 2008, IQMS consistently provided the kinds of solutions our readers need to successfully manage their global enterprises. As shippers, carriers, and 3PLs increase their use of logistics IT, IQMS continues to be flexible and responsive, anticipating customers’ evolving needs. That’s why our editors have recognized IQMS as one of 2008’s Top 100 Logistics IT providers.”

Facing challenges such as global competition and rising costs for energy, raw material and skilled labor, manufacturers of all types and size are increasingly relying on technology to streamline production and drive enterprise-wide efficiency. To keep readers informed and provide a balanced and accurate assessment of available technology solutions both *Inbound Logistics* and *START-IT* magazines conduct extensive annual

reviews to rank their top picks for solution providers. *Inbound Logistics* selects companies based on their leadership in providing simplicity, ROI, and efficient implementation, while the “*START-IT 125*” is designed to provide a snapshot of the industrial market and the companies with the greatest impact on its direction.

“Each year, we see more change in the manufacturing industry and the available technology, and each year the editors of *START-IT* must be more critical in examining the top 125 technology providers,” said Peggy Smedley, editorial director of *START-IT*. “The *START-IT 125* lets our readers know what the best solutions are, who can provide them, and how they can help manufacturers improve business practices. We consider IQMS among the best of technology providers for manufacturing.”

About Inbound Logistics

Inbound Logistics is the pioneering publication of demand-driven logistics practices, also known as supply chain management. IL’s educational mission is to help businesses efficiently manage logistics, reduce and speed inventory, and neutralize transportation cost increases by aligning their supply to demand and adjusting enterprise functions to support that paradigm shift. More information about demand-driven logistics practices is available at www.inboundlogistics.com.

About *START-IT* Magazine

START-IT magazine helps manufacturers take full advantage of the power of partnerships by emphasizing the importance of IT partnerships and how these partners are working together to reach their goals through the use of technology. Emphasizing the power of partnerships, *START-IT* is read by decision makers across all manufacturing segments as a primary source of business strategies to best take advantage of today’s technologies. www.start-itmag.com

About IQMS

Since 1989, IQMS has been a pioneer in the design and development of ERP software for repetitive, process and discrete manufacturing industries.
