IQMS Congratulates Plastic Components, Inc. on Winning *Plastics News*' Processor of the Year

Plastic Leader Leverages the Value of EnterpriseIQ

Paso Robles, California, March 04, 2009 – IQMS, a leader in the design and development of Enterprise Resource Planning (ERP) software, congratulates its customer Plastic Components, Inc. (PCI) for being selected as Processor of the Year by *Plastics News*. PCI uses EnterpriseIQ, the innovative single-source enterprise software solution from IQMS throughout its manufacturing facilities, and has leveraged the software to facilitate lean operations across its supply chain.

Now in its 13th year, the Processor of the Year Award honors excellent, well-rounded companies, private or public, operating in North America for at least five years, and examines them within seven key areas: financial performance, quality, customer relations, employee relations, environmental performance, public service efforts, and technological innovation. A committee of *Plastics News* editorial staffers judges the nominees primarily on their performance for the previous year, but also considers longer-term performance.

“PCI utilizes complete process automation to keep costs low and quality high. By doing so we’ve prospered to become a leading, globally-competitive supplier of critical molded plastic parts,” says Tom Duffey, chief executive officer of PCI. “I couldn’t be prouder of our achievement in the industry, and I’m pleased PCI has been acknowledged as Processor of the Year. At PCI, we focus our core strengths in automation to keep our manufacturing processes running very lean. IQMS is our technology partner and helps us keep our competitive edge while still providing outstanding customer satisfaction and achieving ever higher standards of business management.”

IQMS is celebrating its 20th year helping manufacturers, like PCI, lead the market in technology innovation. EnterpriseIQ from IQMS provides real-time shop floor to ERP,

industry specific functionality for repetitive and process manufacturers. IQMS provides a world-class strategy for managing growth, data integrity, and change – giving award winning manufacturers like PCI an advantage in today’s demand-driven economy.

“We’d like to congratulate PCI for achieving this coveted award and recognize them as Processor of the Year. We are proud that EnterpriseIQ ERP software has been able to play a key role in the success of our customers, especially as they are being highly praised for their work in the manufacturing industry,” said Randy Flamm, president of IQMS. “We are thrilled that PCI continues to be acknowledged as an industry leader. PCI’s success underscores the fact that our software has a valuable impact on our customers’ business and in helping to maintain lean manufacturing operations.”

About Plastic Components, Inc.

Plastic Components, Inc. (PCI) is a globally competitive, low-cost producer of critical injection molded thermoplastic parts for original equipment manufacturers. Since 1989, the Wisconsin-based company has relied on complete process automation to provide the highest quality parts at the lowest possible cost. With 45 dedicated manufacturing cells (presses, robots, parts conveyors and automated material handling systems) producing parts on a fully automated basis 24 hours a day, PCI has shipped over one billion molded parts to customers throughout North America.

About IQMS

Since 1989, IQMS has been a pioneer in the design and development of ERP software for repetitive, process and discrete manufacturing industries. Today, IQMS provides leading real-time manufacturing, accounting, production monitoring, quality control, supply chain, CRM and eBusiness solutions to the automotive, medical, packaging, consumer goods and other manufacturing markets. The innovative, single-source enterprise software solution, EnterpriseIQ offers complete functionality and scalable solutions all in a single database. With offices across North America, Europe and Asia, IQMS serves manufacturers around the world. Visit IQMS online at www.iqms.com.
