Medical Expertise

Optimal Productivity for Healthy Profitability

Medical device manufacturers operate in one of the world's most competitive and highly regulated industries where success can hinge on time-to-market and traceability. That's why Class 1, 2, and 3 device manufacturers turn to EnterpriseIQ from IQMS for advanced capabilities that help sustain their competitive advantage.

Manage Compliance and Quality

IQMS understands that medical manufacturing requires higher standards. EnterpriseIQ Quality Medical provides tools and capabilities necessary to cost-effectively manage compliance with quality issues while facilitating internal communication and collaboration. These industry-specific modules address:

- TS and ISO standards
- FDA and CFR requirements
- Up-front Risk Assessment
- Electronic signature and document control capabilities
- Complete audit trail of manufacturing process
- Comprehensive Corrective Action/ Preventative Action (CAPA) functionality
- Non-conforming product review and tracking

Complete Communication

The single database structure of EnterpriseIQ increases communication across all departments. Eliminating the need for duplicate data entry translates to features such as customer service being notified about quality issues with parts before an order is entered.

Seamless Tracking

The Device History Record (DHR) module allows medical device manufacturers to cost-effectively:

- Eliminate time-consuming, paper-based tracking systems
- Streamline product development
- Better ensure quality standards compliance
- Gain total visibility and control over the manufacturing process

Powerful Tools for Success

EnterpriseIQ from IQMS offers a comprehensive single database solution that provides a host of critical capabilities needed to success, such as:

- Lot and serial tracking
- Warranty and service tracking
- Complaint tracking
- CAD library management

Meeting Medical Device Manufacturers' Needs

IQMS offers a powerful solution tailored to systematically meet the unique challenges of the medical manufacturing industry. Customized modules such as Quality Medical and DHR, exemplify the commitment of IQMS to address the ever evolving and complex needs of the industry with solutions that make medical device manufacturers' jobs easier.
