Assembling Expertise

Addressing Assembly Challenges from Design to Off the Line

The invention of assembly line manufacturing skyrocketed mass production into reality and greatly reformed the manufacturing industry. Today, assembly manufacturing has evolved into many different styles, all capable of producing some of the world’s most valuable goods. But if assembly manufacturing and fabrication are so important, then why is it that most ERP vendors don’t offer tools and programs specific to your assembly processes?

Unlike many other ERP providers, DELMIAWORKS offers industry-specific features to assist with production planning, product lifecycle management and maintaining quality products throughout the process. With features such as dispatch lists, labor reporting, sub-assembly support and line clearance security, DELMIAWORKS offers software that fits your assembly and fabrication processes and improves your company enterprise-wide.

Scheduling Flexibility

Whether you require dispatch lists or finite scheduling (or a mix of the two), with DELMIAWORKS, your employees can electronically log into their specific dispatch lists for the day to receive job details, operation schedule times and more directly from their work stations. Additionally, assembly production planning is a cinch with detailed fabrication and assembly routings, capacity planning and sub-assembly control.

As of January 2019, IQMS is becoming DELMIAWORKS, joining the global manufacturing powerhouse Dassault Systèmes and its portfolio of innovative brands.
Our 3DEXPERIENCE® platform powers our brand applications, serving 12 industries, and provides a rich portfolio of industry solution experiences.

Dassault Systèmes, the 3DEXPERIENCE® Company, provides business and people with virtual universes to imagine sustainable innovations. Its world-leading solutions transform the way products are designed, produced, and supported. Dassault Systèmes’ collaborative solutions foster social innovation, expanding possibilities for the virtual world to improve the real world. The group brings value to over 210,000 customers of all sizes in all industries in more than 140 countries. For more information, visit www.3ds.com.
