

Virtual Class Agenda

EnterpriselQ Warehouse Management

This is a five day hands-on course in which the user will learn how to utilize EnterpriselQ's Warehouse Management System. This course will take you through EnterpriselQ's WMS and IQRF Software Modules. Topics covered will include labeling in EnterpriselQ, Receiving and Shipping via scanner, Pallet Labels, Serialized Inventory Control and more.

Who should attend?

System Analysts, Warehouse managers, Key managers or personnel responsible for production control, inventory, and materials management

Prerequisites

EnterpriselQ software purchased, installed, and currently being utilized at your facility. Students must also have completed the EIQ Manufacturing I Training course or have a great working knowledge of EnterpriselQ manufacturing and be familiar with your company's material handling procedures.
